

# Living and working in Dubai

**PBS** (People's Business Support) is an international recruitment agency that mediates staff for a permanent or a temporary position in the Netherlands or abroad, mostly in Europe, the Middle-East and Africa. We focus on highly educated employees of higher professional and university level, usually for managerial positions. Since

our foundation in 1992, we have built up a broad client database, varying from governments to international consultancy firms, building companies, project organizations and engineering companies. We are a full-service company, so clients as well as candidates can contact us if they are looking for mediation solutions.

## Projects in the United Arab Emirates (UAE)

We are looking for project managers and senior project managers for a prestigious project in the Middle-East. In this area, Nakheel is contributing to the realisation of the largest urban development in the world: Dubai Waterfront. This ambitious project is situated at the Arab Gulf between Abu Dhabi and Dubai where the empty desert and the ocean meet. Dubai Waterfront is where the vision of Dubai's leaders gets built. With this project, the coast line will be extended by 820 kilometres. The city will measure 12,500 hectares, two

times the size of Hong Kong, and will inhabit 1.5 million people after completion. Its mixed, international community will come to live in a sustainably developed city, with a large variety of high quality facilities and attractions. Hotels, apartments, villas, sports accommodations, offices and shopping centres... Everything will be built according to contemporary architecture and in conformity with the highest architectural requirements.

A metamorphosis of the landscape in front of the coast will be realised. Here, 300 artificial islands – The World

– will be spouted up and built on. In addition, three islands in the shape of palms will be created (Palm Islands). The first of these – Palm Jumeirah – has already been completed and accommodates 2,000 luxury apartments and villas. The remaining two islands, Palm Jebel Ali and Palm Deira, are being developed so that after completion of the islands a true 'Palm Trilogy' will have been created.

More information about these projects can be found on: [www.nakheel.com](http://www.nakheel.com) and [www.waterfront.ae](http://www.waterfront.ae)

## Candidates

For this great urban development project, personnel from all over the world is invited to contribute to every imaginable building and infrastructural activity: road construction, canals and bridges, public transport systems (lightrail and metro), telecommunication, (sustainable) energy provision, waterworks and sewer systems, district cooling, and more. PBS is commissioned to acquire highly educated project managers and senior project managers with an innovative approach and a leading role in this enormous development project.

## We are looking for:

Candidates who have obtained a higher professional or a university degree in a specific discipline (for example infrastructure, mechanical engineering, energy technology, urban development, traffic technology, landscape architecture, et cetera). Candidates should have at least 5 years of (managerial) experience in their discipline. Financial responsibility in earlier projects is preferable, as well as knowledge of Design & Construct tenders and drafting budgets and schedules. Obviously, an excellent knowledge of the English language is required so that written and oral reports can be produced effortlessly. Furthermore, the candidate should be willing to live and work in Dubai for at least 3 years.

## Candidates should have/be:

| Core competences:   | Position competences:             |
|---|-----------------------------------|
| Flexibility and the ability to adapt to a new environment | Analytical mind                   |
| Clear communication skills                                | Focused on continuous improvement |
| Reliable  | Developing others / Supervision   |
| A result-oriented approach                                | Leadership                        |
| Launching initiatives                                     | Resource- en projectmanagement    |
| Problem solving capacities<br>Decisive                    | Technological skills              |
| Able to work together in a team                           | Professional skills               |

## We offer:

Varied, challenging work in a multicultural project organization employing people from almost 50 different national backgrounds. A stay in a country with pleasing living and working conditions. An excellent salary and good employment conditions. In the first period of your stay, you will be guided by a personal coach who will familiarise you with the emirate. Furthermore, on top of the basic income, a bonus will be provided for living costs.

And our client offers many additional facilities and compensation, such as:

- a 40-foot container (including insurances) for removal purposes;
- free health care for the whole family;
- a study allowance for 3 children;
- an annual bonus;
- annual tickets for the family to visit their home country.

**Does this unique opportunity appeal to you** and do you meet with the required qualifications?
